UNDER A PSDP PROJECT:
"DATA REPOSITORY OF SCIENTIFIC INSTRUMENTATION"

PAKISTAN COUNCIL OF SCIENTIFIC AND INDUSTRIAL RESEARCH (PCSIR)
MINISTRY OF SCIENCE & TECHNOLOGY
GOVERNMENT OF PAKISTAN

BACKGROUND

Pakistan Council of Scientific and Industrial Research (PCSIR), an organization under Ministry of Science and Technology, is mandated to carry out research, development and innovation for the industrial sector of Pakistan. In line with its mandate, inter-alia, it also provides bench facilities and state-of-the-art analytical testing facilities to researchers all over the country.

The main purpose of the DRSI project is to support researchers in their research by providing them the cost of their sample (research outcome) analyses from available instrumental facilities in the country. This will further lead towards the human resource development, indigenous technology development, technology transfer, and scientific collaboration among the universities and research centers.

KEY FEATURES

Under this program, the eligible researchers/ students may avail analytical testing facilities for nationally important research projects in the priority areas mentioned in the Special Investment Facilitation Council (SIFC) from any public sector laboratories in the key research areas:

- Chemical sciences (pharmaceutical, fine chemicals, raw materials, etc.)
- Biological sciences (gene editing, microbial treatments of water/ waste-water, diagnostic techniques survey and treatment of chronic diseases, etc.)
- Agricultural sciences (Food sciences, product development & value addition, enhancement of shelf-life, herbal products, etc.)
- Material sciences (minerals purification/ leaching techniques, precision metals identification techniques, composite & advanced materials, etc.)
- Medical Sciences (Medicines, Diseases, Drug discovery, Medical Technology, APIs, etc.)
